

Eco Wet Floor Sign

Our Safety Sign is now available in 100% recycled plastic

We're delighted that we can offer the same bestselling Standard Wet Floor Sign but now made of 100% post-consumer recycled plastic.

This now means that for every Eco Wet Floor Sign you are saving 670g of virgin plastic. And, if all the comparable floor signs were made from recycled plastic, between us we would save nearly 30 tonnes of virgin plastic each year. That's the equivalent of the weight of a humpback whale.

The sign warns against potential hazards from wet floor surfaces during and after cleaning or spillages. Made from recycled yellow plastic with bright red/black graphics. No assembly needed, folds flat for easy storage.
