

Deb® InstantGEL Complete

Alcohol-Based Gel Hand Sanitiser

PRODUCT DESCRIPTION

Highly effective broad spectrum alcohol based hand sanitising gel.

WHERE TO USE

Ideal for use in all healthcare and food handling environments where high levels of hand hygiene are vital. Also, suitable for use in cafeterias, office areas, rest areas and any public facility to help reduce the spread of germs.

WHEN TO USE

Healthcare environments – use hand disinfectant as per the World Health Organisations "5 Moments of Hand Hygiene" recommendations.

Food handling environments – use hand disinfectant as recommended by HACCP risk assessment.

General hygienic use – use hand disinfectant after coughing, sneezing, contact with body fluids or touching potentially contaminated surfaces.

HOW TO USE

For hygienic hand disinfection (according to the EN1500 standard) – apply 3 doses (3ml) and spread across all parts of hands for 30 seconds (60 seconds for viruses); re-apply as necessary to keep hands wet.

For surgical hand disinfection (according to EN12791 standard) – apply 3 doses (3ml) and rub in to hands using standard hand rub procedure; re-apply as necessary to keep hands wet for 90 seconds.

For general hand hygiene – apply 1-2 doses direct to clean hands and rub across all parts of the hands.

FORMAT: GEL

FEATURES	BENEFITS
Complete broad spectrum activity	Highly effective formula is fully tested and proven to be bactericidal, virucidal, yeasticidal and mycobactericidal. Kills 99.999% of many common germs.
Instant gel action	Rapidly and easily rubs across hands, providing the user with complete control of the product, preventing the dripping and splashing associated with using liquid alcohol sanitisers.
Pleasant-to-use	The smooth gel is extremely pleasant for frequent use in-between hand washing, encouraging maximum compliance due to the moisturising agents Glycerin and Panthenol.
Skin Hypoallergenic	Dermatologist tested to verify and confirm this product has very low allergenic potential and is designed for sensitive skin.
Perfume-Free and Dye-Free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
Suitable for food facilities	Product has been independently evaluated and trace amounts of the product are not expected to cause adverse toxicological effects. Food handlers should use product only in accordance with label instructions and product should not come directly into contact with food or items that contain food.
Contains hamamelis astringent extract	Helps to prevent the skin from softening when sweating during glove use.
Glove compatible	Suitable for use with latex, vinyl and nitrile gloves.
No water required	Quickly dries on hands without the need for rinsing with water. Ideal for use outside the washroom at the point of need.
Silicone-free	The product will have no adverse effect if in contact with surfaces prior to the application of paint or surface coatings.

Deb® InstantGEL Complete

Alcohol-Based Gel Hand Sanitiser

STATUTORY REGULATIONS

This product meets the current national regulations for Biocidal products.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to our Safety Data Sheet which can be downloaded from www.scjp.com/msds.

HANDLING INSTRUCTIONS

Use biocides safely. Always read the product instructions before use. Please refer to the label or SDS for safety information.

SHELF LIFE

This product has a shelf life of 36 months.

SUITABLE FOR USE IN FOOD HANDLING

The use of Deb® InstantGEL Complete as per usage instructions, does not influence the quality and safety of foodstuffs.

Deb® InstantGEL Complete has been assessed using the HACCP hazard analysis methodology. The following critical control points were identified and are controlled as follows -

1. Impact on smell and taste of foodstuffs - The formulation has been independently tested according to 'Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007' and proven to not have the potential to taint food.
2. Possible toxic effects of ingredients - An independent oral toxicological evaluation was performed and concluded that any foodstuffs which may contain trace amounts of the product, are unlikely to cause any adverse toxicological effects.

QUALITY ASSURANCE

SC Johnson Professional skin care products are manufactured in facilities which follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

All raw material used for production undergo a thorough quality control process before being used for manufacturing in SC Johnson Professional's high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

COMPATIBILITY ASSURANCE

Glove Compatibility

In independent testing, the use of Deb® InstantGEL Complete™ in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

PRODUCT SAFETY ASSURANCE

Skin Compatibility Test

Clinical dermatological tests have been conducted to assess the skin compatibility of the product using voluntary test persons in enclosed and repeat application models. These tests, as well as in practical use, have proven that the product has very good skin compatibility. Skin compatibility expert reports are available upon request.

Toxicological Approval

The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal sensitization after conducting an independent 6 week Human Repeat Insult Patch Test (HRIPT).

Allergy sufferers should always refer to the ingredient list before using the product.

EFFICACY TESTS

TEST TYPE	TEST STANDARD	TEST CONDITION	COMMENT
Bactericidal	EN1500	In vivo	Product passes at 30 seconds (3mls).
	EN12791	In vivo	Suitable for surgical hand disinfection - apply 3ml and keep hands wet for 90 seconds.
	EN1276	In vitro	Suitable for use in food, industrial, domestic and institutional areas. Possesses bactericidal activity in 30 seconds under clean conditions using 4 referenced strains.
